## Contents

# Small Capacity Drinkers

- Designed with rounded edges for ultimate animal safety.
- Crack resistant in extreme weather.
- Fitted with ½" brass valve.
- Unique double wall bowl making it extremely impact resistant.
- Mounting holes or brackets provided for secure fitting and easy installation.

## Dumpy Tip-Over Drinker

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| DBL9 | 3.5L / 0.7gal | 340 L x 230 W x 360 H | ■ |

To view our product video scan this QR Code

- Gravity operated rotation, tips the water at 180 degrees dumping all the water and returning to a working position.
- Refills in 20 seconds at 3 bar pressure (9L/min) *max. 4 bar pressure*.
- Float valve is fitted.
- Protected by an inbuilt galvanised steel bracket.

## Nose Fill Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| DBL5 | 2L / 0.4gal | 254 L x 254 W x 230 H | ■ ■ |

- Refills in 8 seconds at 3 bar pressure (15L/min) *max. 4 bar pressure.*
- Valve dispenses water on demand, suitable for wall fixing.

DBL5

## Nose Fill Drink Bowl (Pipe Fix)

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| DBL7 | 2L / 0.4gal | 270 L x 250 W x 225 H | ■ ■ |

- Refills in 8 seconds at 3 bar pressure (15L/min) *max. 4 bar pressure*.
- Valve dispenses water on demand, suitable for pipe fixing.

## Nose Fill Drink Bowl (Double Entry Valve)

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DBL8 | 2L / 0.4gal | 300 L x 220 W x 260 H |

- Refills in 24 seconds at 3 bar pressure (5L/min) *max. 4 bar pressure*.
- Water supplied into the top or bottom of ball valve, suitable for wall fixing.

## Heated Nose Fill Drink Bowl (Double Entry Valve)

| CODE | CAPACITY | DIMENSIONS (MM) | ELECTRICAL INPUT |
|------|----------|-----------------|------------------|
| DBL8-H | 2L / 0.4gal | 300 L x 220 W x 260 H | 24vDC |

- Works in conditions as low as -30ºC.
- Refills in 24 seconds at 3 bar pressure (5L\min) *max. 4 bar pressure*.
- Water supplied into the top or bottom of ball valve, suitable for wall fixing.
- Low Safe Voltage - 24vDC.

# Large Capacity Drinkers

- Designed with rounded edges for ultimate animal safety.
- Strategically positioned mounting holes or brackets are provided for secure fitting and ease of installation.
- Crack resistant in extreme weather.

## Thermal Drinker

Our Thermal Drinker prevents water from freezing during the winter, while also ensuring it stays cool in summer. The unique design can be used with or without an internal bucket. The float insulates the water by floating at the top of its surface and the animal accesses the water by nudging down on the float.

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| TED01 | 20L / 5gal | 500 L x 490 W x 460 H |

*Freeze resistant up to
- 18 Hours in -5°C
- 10 Hours in -15°C
- 5 Hours in -20°C

*Results are based on using a full bucket of water at 15°C.*

## Conventional Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| DBL | 16L / 3.5gal | 395 L x 400 W x 340 H | ■ |

- Fitted with ½" brass valve.
- Supplied with 2 stainless steel mounting brackets.
- Built in drain-off (25mm).
- Optional left or right valve fitting.
- Refills in 1 minute 36 seconds @ 3 bar pressure (10L/min)
  *max. 4 bar pressure.*

## Fast-Fill Conventional Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DBLFF | 16L / 3.5gal | 395 L x 400 W x 340 H |

- Fitted with ¾" brass valve.
- Supplied with 2 stainless steel mounting brackets.
- Built in drain-off (25mm).
- Optional left or right valve fitting.

## Clean Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| KDBL2 | 20.5L / 4.5gal | 525 L x 375 W x 300 H |

- Refills in 2 minutes 3 seconds @ 3 bar pressure (10L/min).
- Water covered by swinging lid to prevent contamination.

## Corner Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DBL3 | 22L / 5gal | 660 L x 482 W x 241 H |

Refills in 4 minutes 24 seconds @ 3 bar pressure (5L/min).

## Calf / Sheep Drink Bowl

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DBL2 | 29.5L / 6.4gal | 1250 L x 237 W x 235 H |

- Refills in 6 minutes @ 3 bar pressure (5L/min).
- Can be placed between two zoned areas giving several animals simultaneous access to water.

## Large Drink Bowl Protection Brackets

# Fast-Fill Water Troughs

We understand the importance of providing livestock with fresh, clean and easily accessible drinking water. Through consultation with agricultural specialists and listening to the needs of farmers we have developed an extensive range of water troughs suitable for all applications.

- Valve protected within an easy to access compartment.
- Thick walls for greater strength and durability.
- Crack resistant in extreme weather.

## Circular Fast-Fill Water Troughs

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DT180FF | 871L / 190gal | 1550 Ø x 660 H |
| DT250FF | 1125L / 248gal | 1835 Ø x 680 H |
| DT350FF | 1590L / 350gal | 1900 Ø x 750 H |
| DT450FF | 2406L / 450gal | 2130 Ø x 830 H |

Ingenious design reduces badger access.

DT450FF

## Oval Fast-Fill Water Troughs

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DT100FF | 450L / 100gal | 1550 L x 990 W x 685 H |
| DT600FF | 600L / 130gal | 1610 L x 1180 W x 840 H |
| DT800FF | 800L / 175gal | 1970 L x 1180 W x 840 H |
| DT1000FF | 1000L / 220gal | 2180 L x 1180 W x 840 H |

DT1000FF

Ingenious design deters badger access.

## Double Reservoir Fast-Fill Water Troughs

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DT30FF | 136L / 30gal | 1250 L x 475 W x 310 H |
| DT90FF | 400L / 88gal | 1550 L x 730 W x 530 H |

DT90FF

## Mountable Water Trough

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DT80M | 80L / 18gal | 1000 L x 551 W x 447 H |

- Smooth edges for animal safety.
- Trough can be positioned between two separate areas to optimize use.
- Equipped with mounting holes, drain and easy to access float housing.
- Valve not included.

## NEW PRODUCT

## Single Reservoir Fast-Fill Water Troughs

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| DT15FF | 68L / 15gal | 700 L x 475 W x 310 H |

- Fitted with a drain off bung for easy emptying and cleaning.
- Will withstand extreme climate conditions ensuring long life span.
- Valve protected within a plastic compartment with easy access for servicing.
- Provide your livestock with fresh, clean and easily accessible drinking water.

# Insulated Water Troughs

Water will not freeze in sub-zero temperatures and will continue to work in conditions as low as -30°C without the need for electricity. Animals access the water by pushing down on the white float. The secure chamber can be easily accessed for servicing.

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| ID25 | 25L / 5.5gal | 620 L x 560 W x 350 H |
| ID80 | 80L / 17.5gal | 990 L x 597 W x 438 H |
| ID100 | 100L / 22gal | 1100 L x 550 W x 645 H |

ID80

# Standard-Fill Water Troughs

Our troughs are tough, impact resistant and designed to withstand heavy use. We offer an extensive range of troughs available in a variety of shapes and sizes that are easy to transport, install and service.

- Thick walls for greater strength and durability.
- Crack resistant in extreme weather.

## Single Reservoir Water Trough

| CODE | CAPACITY | DIMENSIONS (MM) |
| --- | --- | --- |
| DT10 | 53L / 12gal | 685 L x 457 W x 255 H |

| DT20 | 100L / 22gal | 900 L x 500 W x 430 H |
| DT30* | 136L / 30gal | 1193 L x 482 W x 280 H |
| DT40 | 180L / 40gal | 1298 L x 472 W x 579 H |
| DT70 | 282L / 62gal | 1372 L x 635 W x 451 H |
| DT90* | 400L / 88gal | 1500 L x 685 W x 533 H |

DT40

*Not available in Great Britain.*

## Tip-Over Trough

| CODE | CAPACITY | DIMENSIONS (MM) |
| --- | --- | --- |
| TOT | 100L / 22gal | 2300 L x 685 W x 520 H |

- Fitted with a float valve (36L/min) for quick refill after cleaning.
- Available with a floor or wall mounted galvanised steel frame.

# Feeders
## & Feed Equipment

# Evolution - Automatic Calf Feeder

The ultimate calf feeding solution - the JFC Evolution Automatic Calf Feeder. This labour-saving device measures, mixes, and dispenses temperature-controlled milk to calves automatically.  Once programmed it can differentiate between calves and feed their individual nutritional requirements supporting them to achieve their optimum growth potential. The Automatic Self-Cleaning cycle activates 4 times per day to cleanse the system for truly effortless calf feeding.

## S2 Control Unit

| CODE | WEIGHT | DIMENSIONS (MM) |
| --- | --- | --- |
| AF70 | 111kg | 902 L x 680 W x 1263 H |

- Feeds 2 calves simultaneously.
- Capacity to feed up to 70 calves.
- Ideal for small to medium herds.
- Single Hopper with capacity for 40kg of Calf Milk Replacer.

## S4 Control Unit

| CODE | WEIGHT | DIMENSIONS (MM) |
| --- | --- | --- |
| AF01 | 132kg | 902 L x 740 W x 1263 H |

- Feeds 4 calves simultaneously.
- Capacity to feed up to 140 calves.
- Suitable for large and expanding herds.
- Dual Hopper with capacity for 2 x 30kg Calf Milk Replacer offers flexibility to feed 2 different types of milk simultaneously.

## Feeder Stall

The Evolution has a working capacity of up to 4 Feed Stalls with each having a maximum range of up to 7m from the Control Unit. The Feed Stall can be easily cleaned to reduce build-up of dirt and bacteria.

| CODE | WEIGHT | DIMENSIONS (MM) |
| --- | --- | --- |
| ST01 | 46kg | 1449 L x 510 W x 1000 H |

- Anti-backing bar supports initial calf training onto the system.
- Robust, durable and easy to clean.
- A Teat Spray Cleanse (optional) cleans each teat after use for enhanced hygiene standards.

# Teat Feeders

Our Teat Feeders offer an efficient way of supplying milk to several animals at once. Each feeder is fitted with either an inverted or non-return valve teat to deliver milk by gravity feed. The teats encourage the natural sucking action allowing milk to be delivered to the animal at an optimum rate. Our Teat Feeders are fitted with 2 sturdy hooks for mounting on a standard gate or fence making them extremely versatile for use around the farm. Hygiene is of huge importance in the rearing of young animals and our Teat Feeders are hygienic, easy to clean, disinfect due to the smooth, seamless polythene surface. Our Teat Feeders are ideal for use in conjunction with our Calf Hutches.

## JFC Starter Teat (Blue)

| CODE | CT6 |
| --- | --- |

- Ideal for new born calves.
- The inverted nipple encourages the calf to suck thereby increasing saliva flow and enhancing milk digestion.
- This pull-through teat can be used on any feeder with a Ø22mm opening.

## EazyFlow Teat

| CODE | CT9 |
| --- | --- |

- Specifically designed to replicate the natural sucking action of a calf on the udder.
- Fitted with a non-return valve preventing milk from flowing back into the feeder ensuring optimum delivery to the calf.
- Manufactured from natural rubber with a soft texture, but durable to last a complete calving season.
- This pull-through teat can be used on any feeder with a Ø22mm opening.
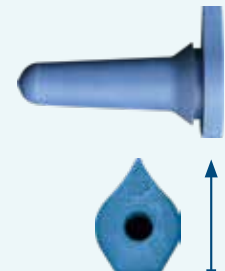

**Insert teats with point facing upwards. It is recommended to replace teats after each calving season.**

## JFC Lamb Teat

| CODE | CT8 |
| --- | --- |

- Manufactured from natural rubber it has a soft texture but is sufficiently durable to last a complete lambing season.
- Openings on each side encourage the lamb to correctly place the teat in its mouth, thereby reducing leakage.
- This pull-through teat can be used on any feeder with a Ø20mm opening.

**Insert teats with point facing upwards. It is recommended to replace teats after each lambing season.**

## Single Teat Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | TEAT |

# Milk Karts

Our Milk Karts (Generation 3) are CE Certified. Depending on your requirements the Manual (170L) and ATV (340L) Milk Karts are available with a Mixer, Pump, Mixer and Pump or neither. Built to last, they are manufactured with a galvanised steel frame.

These labour-saving devices provide consistently blended milk while reducing the separation of precious nutrients, and unnecessary foaming. The 170L model can mix a 20kg bag of milk replacer in just 4 minutes.

Mixer and Pump Milk Karts dispense up to 7,500L milk at 36L/min on a single battery charge.

- Easily transports bulk quantities of whole milk or milk replacer to calves.
- 1½" lever valve allows user to control the amount of milk dispensed.
- Twist on lid minimises spillages and contamination.
- Upgraded braked castor swivel wheels allow for smooth manoeuvrability.
- Non-corrosion plastic rim wheels for use on rough terrain.

## Electric Milk Warmer & Collar

| CODE | DESCRIPTION |
|---|---|
| E3000 | 3,000 Watt Milk Warmer (*heat 140L of water to 40°C in 2hrs*) |

# Gate Feeders

We have developed a range of Gate Feeders suitable for cattle, sheep, horses, goats and pigs. Manufactured from tough, medium-density polyethene these feeders are extremely durable and able to withstand severe impact. The fracture-resistant material and rounded edge design ensure animal safety. Our Gate Feeders are suitable for use both indoors and outdoors. Each feeder is finished with a smooth, seamless coating to reduce feed build-up and allow for easy cleaning and disinfection maintaining the highest standard of hygiene.

## Mini Creep Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| CF80 | 40kg | 790 L x 460 W x 710 H |

- Ad-lib feeding process.
- Holds up to 2 (20kg) bags of meal.
- Rear fill for farmer safety.
- Galvanised hanging brackets allows feeder to be moved easily.
- Fitted with bird flaps to reduce feed contamination.

## Mini Hay Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| HF80 | 80L / 17gal | 790 L x 460 W x 710 H |

- Rear fill for farmer safety.
- Fitted with 2 galvanised steel hanging brackets.
- Ad-lib feeding process.

## Creep Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| CF150 | 60kg | 1025 L x 600 W x 950 H |

- Ad-lib feeding process.
- Holds up to 3 (20kg) bags of meal.
- Hinged lid and protection cover from birds and rain.
- Fitted with 2 galvanised steel hanging brackets.

## Slow Hay Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| SHF150 | 165L / 36gal | 1025 L x 600 W x 950 H |

- Fitted with 2 galvanised steel hanging brackets.
- Encourages slow feeding.
- Reduces waste, spoilage & spillage.

## Gate Hay Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| GFH01 | 100L / 22gal | 920 L x 430 W x 500 H |

- Feeding partitions minimise hay wastage.
- Reinforced hooks fitted to give extra stability and prevent animals from knocking over.
- Ideal for use with our Calf Hutch Frames.

## Gate Feed Trough

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| GFT1 | 23kg | 711 L x 381 W x 304 H |
| GFT | 46kg | 1422 L x 381 W x 304 H |

*GFT*

- Fitted with 2 hooks to provide extra stability.
- Can be stacked to save space.
- Ideal for use with our Calf Hutch Frames.

## Corner Gate Feed Trough

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| CGFT-1 | 10L / 2.2gal | 385 L x 385 W x 250 H |

- Mounted between 2 gates at right angle to each other.
- Suitable for individual penning/hurdle systems where only one sheep is present in each pen/hurdle.

# Feed Equipment

We have developed a range of feeders suitable for sheep. Manufactured from tough, impact-resistant, medium density polyethylene these feeders are extremely durable and withstand even severe impact. The fracture resistant material and rounded edge design ensures animal safety. Suitable for both indoor and outdoor use, each feeder is finished with a smooth, seamless coating to reduce feed build up and for ease of cleaning.

To view our product video scan this QR Code

## Sheep Haybell

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| HB02 | 1 standard round hay bale | 1850 Ø x 1500 H |

- Minimises wastage from trampling and fouling.
- Protects hay in all weather conditions.
- It is designed with 8 feeding ports which allows 16 sheep to feed simultaneously.
- Easy to manoeuvre.

## Mini Sheep Haybell

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| HB04 | 1250 Ø x 1000 H |

- Designed with 6 feeding ports.
- Protects hay in all weather conditions minimising wastage.
- Holds 3-4 small square bales.

# Feed Troughs

We have developed a range of Ground Feed Troughs suitable for cattle, sheep, horses, goats and pigs. Our feeding products help to minimise waste and are capable of withstanding even severe impact.

## Round Feed Trough - Pipe Fixing

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| RFL2-P | 1700 Ø x 1100 H |

- Pipe base provides a secure platform for feeding.

## Round Feed Trough

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| RFL2 | 2133 Ø x 200 H |

Can be bolted to a tractor tyre to provide a secure feeding platform (*tyre & M16 bolts not supplied*).

## Round Feed Trough Insert

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| RFL1 | 2133 Ø x 228 H |

- Acts as a meal feeder when inserted into a standard 20 space round feeder.
- Suitable for meal, hay and silage to minimise waste.

## Ground Feed Troughs

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FT3 | 15L / 3gal | 1000 L x 300 W x 155 H |
| FT6 | 30L / 6.5gal | 1854 L x 279 W x 127 H |

*FT3*

- Allows animals to feed from the ground in their natural feeding position.
- Can be stacked and easily transported.

## Corri-Feed Troughs - IRL

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| CFT-225 | 40L / 9gal | 2300 L x 225 W x 114 H |
| CFT-300 | 70L / 15gal | 2300 L x 300 W x 152 H |
| CFT-375 | 110L / 24gal | 2300 L x 375 W x 228 H |

*CFT-300*

## Corri-Feed Troughs - UK

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| CFT-225 | 40L / 9gal | 2000 L x 225 W x 114 H |
| CFT-300 | 70L / 15gal | 2000 L x 300 W x 152 H |
| CFT-375 | 110L / 24gal | 2000 L x 375 W x 228 H |
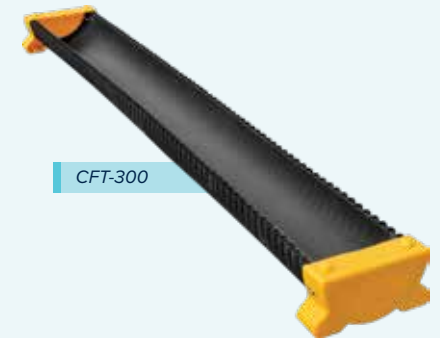

## Basis Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| BF01 | 100kg | 1000 L x 800 W x 340 H |

The basis feeder features three compartments, allowing you to use a combination of minerals within the one feeder. The sloping outer walls ensure that animals don't tip or step on the basis feeder.

## Rocker Feeder

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| MRF01 | 50kg | 770 Ø x 880 H |

The Mineral rocker supplement feeder has a self-raising function. The feeder always turns back to an upright position, no matter how much the animals push it around.

## Supplement Feeding Station

Our Supplement Feeding Station protects expensive supplements from the elements. Animals lift the rubber cover with their heads allowing access to the supplements underneath. This product comprises three compartments, enabling a blend of different minerals. The inclined exterior walls prevent the product from being overturned by animals.

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| SFS01 | 40kg per compartment | 1200 L x 1200 W x 880 H |

- Easy to move and handle.
- Three compartments for housing a range of supplements.

# Feed Storage Bins

Our Feed Storage Bins are ideally suited for storing feed on farmyards and in domestic situations. The bins can also be used to store salt, fuel, boots, wellingtons, sports equipment, etc outside your house whilst still protecting them from the weather. Ideal storage for solid fuel (wood, turf, briquettes). Can be transported with a forklift, bale handler or loader, the bin can be sited in close proximity to the feeding station thus reducing labour and time involved. The meal is kept clean and dry.

## Standard Feed Storage Bins

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| SB100 | 100L / 22gal | 660 L x 580 W x 540 H |
| SB175 | 175L / 38.5gal | 860 L x 860 W x 645 H |
| SB350 | 350L / 77gal | 1050 L x 975 W x 765 H |

- Weighted lid designed to remain securely closed.
- Can be locked if required.
- Stores and protects contents from harsh weather and pests.
- These bins can also be used for storing home fuels or grit.

*SB175*

## Half Tonne Meal Bin

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| CMB1 | 600kg / 1000L | 1200 L x 1200 W x 1360 H |

- Wide opening at the top and a lockable lid.
- Fitted with drain-off (25mm) for ease of cleaning and emptying.
- Suitable for use with forklift, bale handler or loader.

## One Tonne Meal Bin

| CODE | CAPACITY | DIMENSIONS (MM) |
|---|---|---|
| CMB02 | 1200kg / 2000L | 1080 L x 2000 W x 1360 H |

- Perfect solution for transporting and storing meal on a farm.
- Suitable for use with forklift, bale handler or loader.
- 2 wide openings at the top and 2 independent lockable lids.
- Fitted with drain-off (25mm) for ease of cleaning and emptying.

## Cubic Meter Meal Bin

| CODE | CAPACITY | DIMENSIONS (MM) |
| --- | --- | --- |
| CMB04 | 750kg / 1000L | 1400 L x 1220 W x 960 H |

- Fitted with drain-off (25mm) for ease of cleaning and emptying.
- Save money and time on each fill versus using bags.
- Easily tipped to allow access to feed at low levels.
- Fits in standard 8x4 car trailer.
- Bale handler entry points located at end of bin for ease of loading.
- Low profile for ease of access when filling or emptying.
- Strong and durable feed storage bin.

# Housing
## & Accessories

# Calf Hutches

Our Calf Hutches are strong, durable, weather resistant and UV stabilised. They are well ventilated, easy to clean and disinfect, helps reduce pneumonia, scours and Johne's disease. They support higher weaning weights, faster growth. A cost effective and an alternative to permanent buildings.

- Adjustable roof vent for ventilation.
- Lightweight and easy to handle.
- No planning permission required.

## Standard Single Calf Hutch

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| BPCH | 1651 L x 1270 W x 1270 H |

Suitable for calves up to 8 weeks old.

BPCH

## Large Single Calf Hutch

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| CH1102 | 1956 L x 1320 W x 1448 H |

Suitable for calves up to 12 weeks old.
Fitted with rear door, ideal for adding additional bedding.

CH1102

## Group Calf Hutch

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| CH230 | 2100 L x 2150 W x 1700 H |

Suitable for up to 4 calves.

CH230

## Super Calf Hutch

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| CH300 | 3404 L x 2184 W x 1925 H |

Suitable for up to 8 calves or small ponies.

CH300

**Check out our selection of Hutch Frames online @ www.jfcagri.com**

# Housing Accessories

## Calf Slat

| CODE | DIMENSIONS (MM) | MAX LOAD |
|------|-----------------|----------|
| SL09-1 | 1200 L x 900 W x 120 H | 1500kg/m^2 |

Our Calf Slats are tough, long lasting, easy to clean, handle, stack and maintain. They fit perfectly in group pens reducing the quantity of bedding required (when using bedding).

SL09-1

- Lower bedding costs.
- Weather resistant, can be used all year round.
- Durable and labour saving.
- Stacks for easy storage when not in use.
- Available in a pallet of 26.

## Slat Divider

Our Calf Slat dividing system, is an ideal way to further reduce your bedding costs. The Slat Dividers are easily fitted to the JFC Agri Calf Slat, allowing for a flexible calf cubicle system. Following installation there is less trampling in the cubicle area, resulting in an additional saving on bedding costs.

CSD02

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| CSD02 | 1180 L x 105 W x 691 H |

- Easy to clean / install.
- Reduces draughts and keeps the calf warmer.

" The JFC Calf Jacket is far superior to others I have tried. They are much warmer, very durable and easy to get on and off the calves. "

Louise Crowley,
Croom, Co. Limerick.

## Calf Jacket

| CODE | SIZE |
|------|------|
| CJ-00 | Small / 65cm |
| CJ-01 | Medium / 75cm |
| CJ-02 | Large / 85cm |

CJ-02

Our Calf Jackets are made from high quality material that is both water and tear resistant, with a rip-stop outer. Calf Jackets help maximise conversion of energy from feed to growth, rather than heat. They are ideal to help new born calves maintain body heat and reduce illnesses like pneumonia, due to cold stress in the early days of life. Fitted with strong buckles and rear leg straps, making sure they stay in place. Our Calf Jackets will help give your calves the best start in life.

- Breathable & water resistant material.
- Easy to fit and machine washable at 30°C.
- Maintains the calf's natural body temperature and protects from extreme weather.

# Calf Isolation Unit

Our Calf Isolation Unit is an individual calf housing unit which is ideal for the effective isolation of calves. The polyethylene body will ensure the calf is kept warm and draught-free. Lightweight, easy to disinfect, comes with a bracket, a removable calf slat for drainage and heat lamp (bulb not included). An additional removable tray underneath the unit ensures that all waste is contained and can be disposed of separately to comply with Farm Assurance Schemes. The unit provides for more effective feed monitoring, reduces bedding requirements and can help to lower calf mortality rates.

## Ireland

| CODE | DESCRIPTION | DIMENSIONS (MM) |
| --- | --- | --- |
| IU-01 | Isolation Unit | 1460 L x 1020 W x 1200 H |
| IU-01-T | Isolation Unit Bunded Tray | 1277 L x 838 W x 235 H |

## UK (tray included)

| CODE | DESCRIPTION | DIMENSIONS (MM) |
| --- | --- | --- |
| IU-01 | Isolation Unit | 1460 L x 1020 W x 1200 H |

- Provides for specific needs of individual calves and more effective feed monitoring.
- Easy to clean, can be power hosed and disinfected in minutes.
- Reduces the spread of infection.
- Stacks for easy storage when not in use.

*IU-01*

**Animals under red lights should be monitored regularly.**

# Calf Cribs (Not available in UK)

| CODE | DESCRIPTION | DIMENSIONS (MM) |
| --- | --- | --- |
| CC-01 | Calf Crib | 1460 L x 1020 W x 1200 H |
| CC-02 | Large Calf Crib | 1672 L x 1167 W x 1230 H |

- Provides for specific needs of individual calves and more effective feed monitoring.
- Lightweight and easy to handle.
- Easy to clean, can be power hosed and disinfected in minutes.
- Reduces the spread of infection.
- Stacks for easy storage when not in use.
- Side window encourages social interaction.

*Buckets not included*

*CC-02*

# 2G Fencing Systems

Our polyethylene fence posts are extremely robust and durable with a life expectancy in excess of 25 years. Both solid and hollow posts are available to suit any fencing requirement.

- Will not rot, decay, shrink or decompose unlike traditional wooden posts.
- Save time, money and labour.
- Extremely weather resistant (UV stabilised plastic).
- Superior cohesion between plastic and the ground provides for a strong and sturdy hold.
- Will not splinter, have a smooth surface for animal safety and ease of handling.

## 2G Hollow Posts

| CODE | DIMENSIONS (MM) |
| --- | --- |
| STK70-1380 | 70 Ø x 1380 H |
| STK95-1800H | 95 Ø x 1800 H |

Suited to electrical paddock fencing. Wire is attached by drilling a 10mm hole in the post and securing the wire with a 2G Fencing Clip (WFC01). Alternatively a hole can be drilled through the post and the wire fed through.

- Strong and durable with sufficient flexibility to withstand impact.
- Polyethylene is a natural insulator so voltage stays on the wire and eliminates short circuits.
- Lightweight and easy to install, ideal for use in restricted areas.

*STK70-1380*

## 2G Solid Posts & Strainers

| CODE | DESCRIPTION | DIMENSIONS (MM) |
| --- | --- | --- |
| STK95-1800 | 2G Solid Post | 95 Ø x 1800 H |
| STK165-2100 | 2G Strainer Post | 165 Ø x 2100 H |

The 2G Solid Post & Strainers have a pressure treated solid, wooden core surrounded by a layer of polyethylene. Pointed at the tip for ground penetration and fitted with a flat cap for manual or mechanical installation. Wire is attached by fencing methods using nails and staples. Ideal for permanent boundary fencing.

- Wooden core provides outstanding structural strength and firmness.
- Unique polyethylene outer layer protects the wooden core and delivers superior durability.

*STK95-1800*

# Wheelbarrows

## & ATV Equipment

## Wheelbarrows

Our range of innovative Wheelbarrows are ideal for Agricultural / Equine use. Each Wheelbarrow is fitted with a galvanised metal frame and roller bearing pneumatic wheels to deliver superior manoeuvrability and smooth handling. Our Wheelbarrows are tough, durable and lightweight in use, even with heavy loads.

| TWB500-2 | 500L | 2190 L x 1100 W x 910 H | |

- Minimum effort to transport and tip heavy bulky loads.

*TWB250*

*TWB250-1*

## Mini Tipping Wheelbarrow

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| TWB125A | 125L | 1255 L x 590 W x 640 H | ■ |

Our Mini Tipping Wheelbarrow is ideal for use on the farm or garden, it's tough, durable, lightweight and easy to use.

## Junior Tipping Wheelbarrow*

Our Junior Tipping Wheelbarrow is ideal for your little helper, it is tough, durable and lightweight.

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| TWB125 | 125L | 1120 L x 590 W x 640 H | ■ ■ |

• Tips with ease and good handling on rough terrain.
• Ideal for mucking out and gardening.

*Adult Supervision Recommended*

## Slimline Feed Wheelbarrow

| CODE | DESCRIPTION | CAPACITY | DIMENSIONS (MM) |
|------|-------------|----------|-----------------|
| TWB7 | Narrow Wheelbarrow | | |
| TWB7-PL | Plastic Lid for TWB7 | 250L | 1200 L x 630 W x 800 H |
| TWB7-L | Hinged Lid for TWB7 | | |
| TWB7-D | Wooden Divider for TWB7 | | |

The slim, narrow shape makes it particularly suited for narrow passageways in farm buildings and stables. Fitted with 2 pneumatic wheels and 2 swivel wheels for optimum manoeuvrability.

• 2 varieties of lids and a divider available separately.
• Large capacity makes it ideal for distributing feed in stables and sheds.
• Lightweight even with heavy loads reducing physical strain on the user.

TWB7

## Fixed Body Swivel Wheelbarrow

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| TWB2-G | 250L | 1575 L x 865 W x 720 H | ■ ■ |

• Fitted with a heavy duty 200mm swivel wheel.
• Suitable for use on level ground.

## Fixed Body Wheelbarrow

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| TWBG | 250L | 1800 L x 865 W x 720 H | ■ ■ ■ ■ |

This 250L wheelbarrow is fitted with a galvanised metal frame and roller bearing pneumatic wheels to deliver superior manoeuvrability and smooth handling. It is tough, durable and lightweight in use, even with heavy loads.

Also suitable for transporting new born calves and other smaller animals.

## Wheelbarrow Covers

# ATV Trailers & Accessories

Our range of trailers and boxes are particularly suited for All-Terrain-Vehicles (ATV) or Quad bikes. Each trailer is fitted with 2 pneumatic wheels, galvanised chassis and an easy-to-use tipping mechanism. The heavy duty galvanised frame ensures the trailer is suited to harsh terrain. Some initial assembly is required. ATV range not suitable for highway use.

## ATV Fertiliser Spreader

| CODE | CAPACITY | FEATURES | DIMENSIONS (MM) | COLOURS |
|---|---|---|---|---|
| ATV-FS500E | 500L | Electronic control of both gearbox | 1971 L x 1800 W x 1200 H | ■ |
| ATV-FS500M | | Manual control of both gearbox | | |

Our Manual ATV Fertiliser Spreader rate of spread and on / off of spreading can be controlled without leaving the drivers seat. Our Automatic ATV Fertiliser Spreader is CE Certified. The operator controls both the onset and rate of spreading without leaving the vehicle.

- Suitable for operation on sloping and mountainous terrain due to its low centre of gravity and wide wheelbase.
- Large hopper capable of transporting and spreading up to 500kg of most fertiliser types.
- The spreader has a 12m spreading width running at 15km/hr.

## ATV Trailers

| CODE | CAPACITY | FEATURES | DIMENSIONS (MM) | COLOURS |

| ATV500-2 | 500L | Metal support frame suitable for heavy loads. Fitted with lever ball hitch | 2316 L x 1425 W x 940 H | ■ |

- Lever ball, locking hitch.
- Spring loaded locking mechanism.
- Strong hinge point.
- Protective plate on tipping point.

ATV500-2

## ATV Hydraulic Tipping Trailer

| CODE | CAPACITY | FEATURES | DIMENSIONS (MM) | COLOURS |
|---|---|---|---|---|
| ATV500T | 500L | Fitted with an easy-to-use hydraulic tipping mechanism | 2195 L x 1364 W x 966 H | ■ |

Our ATV Hydraulic Tipping Trailer is suited for All-Terrain-Vehicles (ATV) or Quad bikes and is CE / CAUK Certified. The trailer is fitted with two 4 Ply off road tyres, a galvanised chassis and an easy-to-use hydraulic tipping mechanism. The heavy duty galvanised frame ensures the trailer is suited to harsh terrain.

- Reinforced heavy duty galvanized chassis.
- Tough & durable polyethylene body.
- Protective steel plate on front lip of body prevents damage on impact.
- Hydraulic tipping mechanism for tipping of loads (load capacity 500kg).
- Strengthened rugged axle complete with 4 Ply off road tyres and mud guards.
- Electronic control of both gearbox engagement and rate of spread.
- Fitted with a lever ball hitch.

# Footbaths

We offer an extensive range of footbaths which when used with good farming practices reduce the spread of infection and assist in the prevention and treatment of hoof diseases and lameness. These footbaths are manufactured from tough polyethylene making them extremely hard wearing and durable. All of our footbaths are designed with a turned in lip which significantly reduces the amount of solution wasted due to spillages.

## Narrow Interlocking Smooth Base Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FB7 | 150L / 33gal | 2525 L x 690 W x 150 H |

- Fits in standard crush.
- Interlocking joints for connecting multiple baths.
- Suitable for when a pre-wash is required prior to solution bathing.

# Cattle Footbaths

## Cattle Smooth Base Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FB2 | 360L / 80gal | 2450 L x 770 W x 216 H |

## Cattle Profiled Base Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FB4 | 300L / 66gal | 2095 L x 800 W x 216 H |

- Profiled base opens hooves for extra penetration of solution.

# Sheep Footbaths

## Sheep Foam Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FBF01 | 40L / 13gal | 2380 L x 565 W x 45 H |

- Designed for reducing the spread of infection, easy handling and cleaning.
- Reduces stress on animal.
- Minimises solution waste.

To view our product video scan this QR Code

## Sheep Profiled Base Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FB5 | 145L / 32gal | 2451 L x 470 W x 203 H |

- Profiled base opens hooves for extra penetration of solution.
- Interlocking joints for connecting multiple baths.
- Narrow shape makes it ideal for mobile sheep races.
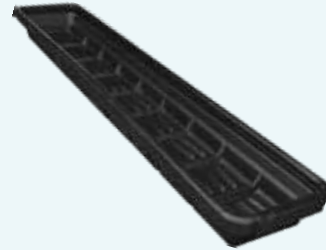

To view our product video scan this QR Code

## Sheep Smooth Base Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FB1 | 80L / 18gal | 1540 L x 570 W x 140 H |

## Narrow Sheep Foam Footbath

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| FBF01-330 | Up to 40L / 8.5gal | 2380 L x 330 W x 45 H |

- Reduces splashing, therefore wastes less solution.
- Foam ensures hoof is fully penetrated in solution.
- Easily transported to desired location.
- Zero reflection on surface means no hesitation for sheep walking through.
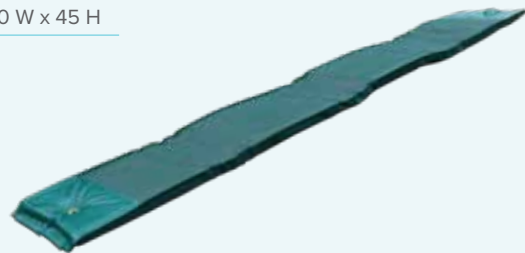

## Sheep Dipping Tub

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| SD250 | 1136L / 250Gal | 2743 L x 940 W x 1219 H |

- Designed for ground installation.
- Stepped exit for smooth passage.

Made to order

# TidyWrap Recycling Bin

Ideal way to store waste plastic bale wraps. The bin is bottomless and has a removable lid which keeps the bale wraps clean and dry. When used effectively the bin can significantly reduce collection costs as the overall weight is much less than if the bale wraps were wet and contaminated. The TidyWrap is designed specifically to allow a bale wrap to be used as a liner saving on the cost of buying a new liner each time.

To view our product video scan this QR Code

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| TRB1 | 120 plastic bale wraps* | 1250 Ø x 1000 H |

- Bungee cord supplied to secure the liner in place.
- Bin lifts easily over the bale wraps.

*Capacity depends on level of contamination and compaction.*

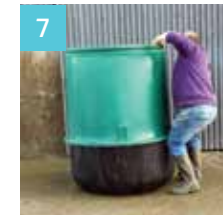

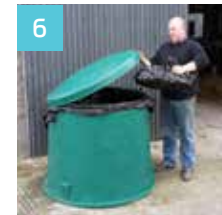

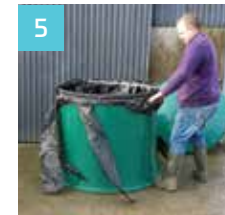

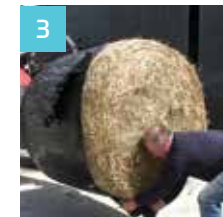

The images above show how to cut strips into the bale which create four tie handles that form the liner. The liner is secured to the bin with a bungee cord (supplied). Once full the handles are tied together and the bin can be easily lifted from above leaving a full bale ready for collection.

# Personnel & Vehicle Baths

Our range of Personal and Vehicle Footbaths are ideal to place at the entrance or exit of sensitive areas to prevent the spread of disease, infection and support bio-security. Both Personal and Vehicle Footbaths are suitable for use with most disinfectant solutions.

## Disinfectant Footbath

| CODE | DIMENSIONS (MM) | COLOURS |
|------|-----------------|---------|
| FBP01 | 534 L x 305 W x 64 H | ■ |
| FBP05 | 1000 L x 580 W x 55 H | ■ |

Position at the entrance to a shed/building to prevent the spread of disease/infection. The Personal Footbath range are fitted with a foam pad insert to reduce the amount of solution required and avoid spillages.

*FBP01-14*

*FBP05*

## Vehicle Disinfectant Bath x1

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| FBP06 | 2620 L x 1010 W x 55 H |

*FBP06*

Our Vehicle Baths are fitted with a carpet insert to reduce the amount of solution required and avoid spillages. They can be placed at the entrance to a site or yard. We recommend that you use 4 Vehicle Disinfectant Baths (sold individually) to cover all of the wheels of one articulated lorry. Reinforced steel bar underneath the sidewalls for added strength. End cover plates MUST be bolted to the ground.

# Hoof Solutions

Our range of Hoof Solutions certified by Organic Farmers and Growers are formulated with a blend of minerals, cleansers and natural antiseptic Tea Tree Oil, suitable for all of our Footbaths. When mixed with water they create an acidic solution (pH2) which maximises the availability of chelated minerals and acts as an effective treatment for digital dermatitis and other bacterial hoof ailments for cows and sheep.

| HHD200 | 200L | 580 Ø x 880 H |
| HHD1000 | 1000L | 1000 L x 1000 W x 1000 H |

Provides 500 cow passes in a 200L Footbath.

## All-In-One Sheep Hoof Solution

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| HHSAI120 | 20L | 290 L x 240 W x 380 H |
| HHSAI200 | 200L | 580 Ø x 880 H |
| HHSAI11000 | 1000L | 1000 L x 1000 W x 1000 H |

Provides 800 sheep passes in a 100L Footbath.

# Solar Lights

Renewable energy contributes to a better environment and helps farmers reach their net zero target. Our Solar lighting range is of superior build quality and suited for use on the farm and equestrian yards and is IP65 Waterproof. Coming with a 5 year warranty (1 year on the battery) for customer peace of mind. The lights provide a great return of investment through savings on electric with zero running costs. No professional installation is required, with very little maintenance and each light can be easily repositioned.

## Saber 40W Solar Floodlight

|------|-----------|
| SOLAR-01 | 40W / 4800LM |

Our Saber Solar Floodlight is the ideal solution for someone looking for self-sufficient powerful lighting (20m x 20m). It has a long run time and can be set to auto or controlled with the remote control. Recommended installation height is 3m - 6m, with a detection distance of 8m - 12m. This light is ideally suited to farmyards, farm tracks, riding arenas, stable yards and general outdoors areas.

## Mini Saber 15W Solar Floodlight

| CODE | BRIGHTNESS |
|------|-----------|
| SOLAR-02 | 15W / 1600LM |

Our Mini Saber Solar Floodlight is the ideal solution for someone who requires self-sufficient, automatic lighting in smaller areas (10m x 15m). Recommended installation height is 2.4m - 5m with a detection distance of 8m - 12m. This light is ideally suited to farmyards, stable yards, gate ways, walkways and general outdoor areas.

## Helios 30W Solar Floodlight

| CODE | BRIGHTNESS |
|------|-----------|
| SOLAR-03 | 30W / 4800LM |

Our Helios Solar Floodlight is the ideal solution for someone looking for flexible and self-sufficient lighting (10m x 15m). The Helios can be switched on and off and dimmed by remote control. Recommended installation height 2m - 3m with a detection distance of 8m - 12m. The solar panel can be mounted up to 5m from the light giving it maximum versatility. This light is ideal for indoor or outdoor areas including sheds, barns, stables and workshops.

## Flare 6W Solar Brick Light

| CODE | BRIGHTNESS |
|------|-----------|
| SOLAR-04 | 6W / 900LM |

Our Flare Solar Brick Light is the ideal solution for someone wanting automatic lighting with easy installation and two lighting modes. Recommended installation height 2m - 4m with a detection distance of 6m. This light is ideal for outdoor use including above doors, walkways, small yards, gate ways and general outdoor areas.

# Smart Farming Range

FarmCam HD allows you to monitor activity on the farm with a range of up to 1,250 metres. The camera features motion-detection and night-vision while recording Full HD (1920X1080) video and sound. Notifications and alarms are sent directly to your smartphone or PC with live view available on the move once the system is connected to WiFi. Comes with 3 year warranty.Connects up to 4 water-proof cameras. Storage capacity of 1TB.

## FarmCam 360s

For indoor and outdoor use that can cover 360 degrees and can be powered by 230V or a Luda Farm solar panel during warmer months. The camera needs Wi-Fi/Internet access for set-up and live-view in the FarmCam 2.0 App which is free of charge. It has dual-band functionality. FarmCam 360S can record upon motion detection and sends you a notification in the App.

| CODE | DESCRIPTION |
|------|-------------|
| LF-FC360 | FarmCam 360s |

- 2560x1440 QHD video resolution with 16x digital zoom.
- Dual-band 2.4Ghz and 5Ghz functionality.
- Lens with a 122-degree field of view.

## FarmCam Mobility S

| CODE | DIMENSIONS (MM) |
|------|-----------------|
| LF-FM01 | 75 Ø x 113 H |

- Use it wherever you have 3G/4G network coverage.
- SIM-card that automatically chooses the strongest network included.
- IP66 with camera skin applied.
- Smart heat and movement sensor with rechargeable battery (up to 2 months usage).

## Fence Alarm

| CODE | DESCRIPTION |
|------|-------------|
| LF-FL01 | Fence Alarm |

An electric fence monitor that notifies you of changes in fence voltage.

## Smart Plug

| CODE | DESCRIPTION |
|------|-------------|
| LF-SP01 | Smart Plug |

Allows you to control connected devices from worldwide from your mobile. Users will receive notifications for temperature and power consumption issues.

# Other Hygiene & Safety Products

## Fuel / Salt Storage Bins

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| SB100 | 100L / 22gal | 660 L x 580 W x 540 H |

## Feeders & Feed Equipment

We design feeders to care for and manage horses. We consult with veterinary experts and breeders to produce tough, impact-resistant products insuring horse safety. Our products are durable and have a smooth, seamless finish for ease of cleaning. Rim designed with feed retention lip to minimise wastage.

### Horse Haybell

| CODE | DIMENSIONS (MM) |
| --- | --- |
| HB01 | 1850 Ø x 1500 H |

- Minimises wastage due to trampling or fouling.
- Fits over a standard round bale.
- Delivers superior nutrition retention by minimising nutrient loss from exposure to weather.
- No metal components making it extremely safe for use.
- Easy to manoeuvre in the paddock or field.

### Mini Horse Haybell

| CODE | DIMENSIONS (MM) |
| --- | --- |
| HB03 | 1250 Ø x 1000 H |

- Minimises wastage due to trampling and fouling.
- Protects hay in all weather conditions.
- It is designed with 3 feeding ports.
- Easy to manoeuvre.
- Holds 3-4 small square bales.

## Circular Floor Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ3 | 15L / 3.5gal | 686 Ø x 229 H | ■ ■ |

- Designed with an outer base rim to stabilise and prevent tipping.
- Internal compartment designed to be filled with sand or water to provide stability.
- Versatile feeder for indoor and outdoor use.

> ❝ I have always been an advocate of feeding concentrate from the floor. It is the natural grazing position, supports the work we do with training, stretching the top line and the long back muscles. It is all round a better, more natural way of feeding horses. ❞
>
> Richard Davison,
> Olympic Dressage Rider.

## Door Mounted Swivel Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ10 | 15L / 3.5gal | 560 L x 305 W x 200 H | ■ ■ |

- Ideal for stable doors with swivel feed slots.
- 3 mounting holes for secure fixing.

## Corner Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ2 | 20L / 4.4gal | 660 L x 419 W x 190 H | ■ ■ |

- 4 mounting holes for secure fixing to a wall or post.

## Wall Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ1 | 15L / 3.5gal | 390 L x 390 W x 220 H | ■ ■ |

- 3 mounting holes for secure fixing to a wall or post.

## Square Floor Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ4 | 10L / 2.2gal | 475 L x 475 W x 165 H | ■ ■ |

## TearDrop Feeders

| CODE | TDHF-C | TDHF-W |
|------|--------|--------|
| DESCRIPTION | Tear Drop Corner Hay Feeder | Tear Drop Wall Hay Feeder |
| CAPACITY | 110L | 50L |
| DIMENSIONS (MM) | 865 L x 625 W x 600 H | 550 L x 325 W x 650 H |
| COLOURS | | ■ ■ ■ |

- Very strong while also ensuring horse safety.
- Mounting holes to securely fit to a stable corner, wall or horse box.
- Easy fill opening.
- Designed specifically for the care & management of horses.

*TDHF-W-2*

# Foal Feeders

## Foal Feeder

| CODE | CAPACITY | DIMENSIONS (MM) | COLOURS |
|------|----------|-----------------|---------|
| EQ5 | 12L / 2.5gal | 370 L x 355 W x 200 H | ■ ■ |

- Fitted with 2 mounting holes for secure fixing.
- Adjustable stainless steel bars prevent adult stock accessing the foal feed.

## Ringfort Foal Feeder

| CODE | WEIGHT | DIMENSIONS (MM) |
|------|--------|-----------------|
| FCF01 | 40kg | 1300 L x 1300 W x 1180 H |

- Unique feeding system for feeding concentrate to foals.
- By adjusting the plate at the feeder port, each foal can be fed the appropriate amount of concentrate.
- Fitted with a ballast system which can be filled for additional stability.

*Made to order*

# Stable Equipment

## Mineral Lick Holder

| CODE | DIMENSIONS (MM) | COLOURS |
|------|-----------------|---------|
| MLC01 | 305 L x 260 W x 260 H | ■ ■ |
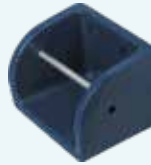

## Playball

| CODE | DIMENSIONS (MM) | COLOURS |
|------|-----------------|---------|
| P-BALL | 225 Ø | ■ ■ |

*Made to order*

## Tack Box

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| EQ8 | 292L / 64gal | 695 L x 530 W x 800 H |

## Haysoaker

| CODE | CAPACITY | DIMENSIONS (MM) |
|------|----------|-----------------|
| EQ9 | 300L / 66gal | 1417 L x 850 W x 1031 H |

- Large 2" quick drain-off.
- Easy open grate for submerging the hay.
- Easy manoeuvrable frame with lockable castor wheel.
- Fully galvanised frame for long lasting protection.

# Combi-Tanks
## & ATV Truck Tanks

# Combi-Tanks ADR

We offer a range of ADR and BSI certified Combi-Tanks which are a safe, clean and secure way of transporting both Diesel and AdBlue to and from a job site thus avoiding the need for a second tank. It reduces downtime and increases machine productivity. Available in 4 Diesel tanks sizes. The AdBlue storage is separate to the diesel tank and comes with an independent pump, hose and nozzle.

- Secure lockable lid.
- Submersible AdBlue pump (12V).
- Maintenance shut-off valve.
- Pump mounted on an anti-vibration plate for reduced noise omission.
- Automatic dispensing nozzle with a 4m hose.
- Forklift accessible on all sides.
- Fitted with D-shackles for secure transportation and can also be used for lifting.

## Combi-Tanks

| TTC600 | 600L | 40L | 1220 L x 800 W x 970 H |
| TTC900 | 900L | 40L | 1220 L x 1200 W x 1230 H |

*TTC 600*

## Additional Extras

- Fuel Gauge.
- Pump, power supply 12/24 V.
- Flow meters: PIUSI, KABI, FMT.
- Pumps: KABI, FMT, Adams.
- Complete with hydraulic struts.
- Fitted solar panels and lights.
- Digital flow metre counter.

Alternative options: A fitted hose reel

# ATV Truck Tanks

Our range of ATV Truck Tanks are particularly suited for All-Terrain-Vehicles (ATV) or Quad bikes. Each trailer is fitted with 2 ATV wheels and galvanised chassis with a suspension axle. The heavy duty galvanised frame ensures the trailer is suitable for harsh terrain.

- Suspension axle.
- Lever ball, locking hitch.
- Jockey wheel.
- Heavy duty pneumatic road tyres.
- Rear lights.
- Compliant with European ADR regulations.
